Introduction

1. Company Background

BYT Trading is a fully automated cryptocurrency trading company established in 2024 and headquartered in Melbourne, Australia. The company is committed to simplifying cryptocurrency trading through artificial intelligence (AI) and automation, providing investors with a more accessible and efficient way to navigate the digital asset market

2. Our Solution

Recognizing the challenges of cryptocurrency trading, including market volatility, emotional decision-making, market manipulation, and evolving regulatory requirements, BYT Trading developed the BYT Trading Bot to streamline trading processes and support systematic, data-driven trading decisions.

3. Our Aim

BYT Trading's primary aim is to empower investors with greater control over their funds while creating opportunities to participate in the cryptocurrency market and pursue potential returns. Through AI-driven innovation, the BYT Trading Bot is designed to serve both novice and experienced investors by making automated trading more convenient and accessible.

4. Our Value Proposition

At BYT Trading, we believe technology can simplify the trading experience and support more disciplined market participation. Our commitment is to promote innovation, investor autonomy, and responsible engagement with cryptocurrency markets, recognizing that trading involves risk and profits are never guaranteed.

BYT Trading — Simplifying Cryptocurrency Trading Through Automation and Innovation.

BYT Trading Bot Solutions

BYT Trading provides cryptocurrency traders and investors with three distinct automated trading bots:

Aether Guard

0.25%–0.6% daily

6-month subscription	1-year subscription
$25	$40

A balanced strategy profile combining momentum and mean-reversion signals across its trading cycle.

Quantumn Pulse

0.8%–1.8% daily

6-month subscription	1-year subscription
$75	$100

A higher-volatility strategy profile intended for users who are comfortable with a more aggressive risk profile.

Titan Forge

2.0%-4.5% daily

6-month subscription	1-year subscription
$125	$175

A more conservative strategy profile designed for users who prefer a steadier approach over aggressive targets.

Each bot is designed to operate within specific market segments and is offered under different subscription plans.
BYT Trading bot offers six-month and one-year subscription options, granting users access to their selected trading strategy throughout the subscription period, with the ability to fund multiple trading cycles. Performance targets vary by bot and market conditions. All published return percentages are indicative ranges, not fixed returns or guarantees of future performance.

How it works

You can start by signing up for a trading account, purchasing the trading bot of your choice and funding your account. From your first deposit to your first withdrawal, every step of the cycle stays visible in your dashboard so you always know exactly where your money sit

01 Create your account

Sign up with your email and password in under a minute.
Email verification and two factor login are available whenever you want them, but neither is required to get moving.

02 Subscribe to a bot

Choose AetherGuard, QuantumPulse, or TitanForge based on the risk profile that suits you, then pick a 6 month or 1 year subscription term.

03 Deposit into your wallet

Send crypto to your personal deposit address, or buy crypto directly through our on ramp partner if you are starting from scratch. Once confirmed, it lands in your wallet balance.

04 Place a trade

Pick the subscribed bot you want to activate, choose which wallet to fund it from, and set the amount to trade. That amount is debited immediately and locked, together with any profit, for the fixed length of that bot's cycle.

05 Withdraw your returns

When the cycle ends, principal plus profit unlock back into that same wallet automatically, ready to withdraw or roll into another cycle.

Platform & Trading Process

Our platform is built to make the trading process easier to follow, from selecting a strategy to reviewing the status of an active cycle. Users can access key account and trading information through a central dashboard.

A clear cycle based process

01	**Choose a strategy** Compare AetherGuard, QuantumPulse and TitanForge based on their published profiles and target ranges.
02	**Select a subscription term** Choose the six-month or one-year access term that fits your intended use.
03	**Configure a trading cycle** Select the subscribed strategy, set the amount to trade and initiate a cycle according to the platform workflow.
04	**Monitor activity** Review cycle status and account information through your trading dashboard
05	**Review cycle completion** When a cycle reaches its scheduled end, the platform updates the cycle status and account

Referral Program

At BYT Trading, we believe that strong relationships and shared opportunities are essential to building a growing community. Our Referral Program allows members to introduce new participants to BYT Trading and earn commissions from the trading activity generated by their referrals.

Earn 10% commission on every trade

BYT Trading offers a 10% referral commission from every qualifying trade made by your referred users. This means you can earn commissions as your referrals continue to participate in trading, subject to the program's applicable terms and conditions.

Example: If a trade generates a return of $1000, 10% referral commission would equal $100. This commission would be paid to the referrer of the user account.

BYT Trading may establish eligibility requirements, commission calculation procedures, payment conditions, and measures to prevent fraudulent or abusive referrals.

Grow Together with BYT Trading

Whether you refer one person or build a wider network, our Referral Program gives you an opportunity to benefit from introducing new participants to BYT Trading. Share your referral link, help others discover our automated financial trading services, and earn a 10% commission on every qualifying trade made by your referrals.

Sovereignty, Transparency, Security & Risk

Sovereignty

At BYT Trading, we recognize that financial independence begins with control over one's own assets. individuals retain ownership and full control of their funds, with the ability to manage, access, and authorize transactions involving their assets without unnecessary third-party interference.

Transparency

We believe people should be able to understand the service they are choosing. We present strategy profiles and subscription terms before subscription, and provide platform views of account activity and trading-cycle status.

Security approach

Our website describes technical safeguards including password hashing, encryption in transit and at rest, short-lived session tokens and optional two-factor login. These measures are intended to support account protection; no online platform can eliminate every security risk.

Risk Disclosure

Financial trading published target ranges are estimated returns, and historical or projected performance may indicate but not limited to future results. Different strategy profiles involve different levels of market leverages and strategies, and higher target ranges may be associated with higher volatility. The information in this company profile is general company and product information, not personal financial advice or a recommendation to use any particular strategy. Users should consider their own circumstances, and applicable local requirements, and seek independent professional advice where appropriate.
